you sky high in the Bible —
It must surely have been a furious
blast — Just tell me the story —
Do you want I should get up discussions
and set this quarter on flame? —
Tell me all about things —

I have just read Van. Buren
on slavery — & pitiful — shallow —
— Just read Child on Texas
in the "Quarterly" — That is the wicked-
est treason in the universe of God
— at least — that I know anything about —
Have read all the Boston documents —
Senator Lunt has reported himself fully —
Bro. Goodell in the "Statement" has shown
himself too — And here is the self for me —

But I must close — in such haste
I'm fearful you will read but part —
At any rate send me a letter —
All good to you for both worlds
Rev. A. A. Phelps. (Yis truly G. C. Sampson)

if they dismiss me when I'm but half way down
the pulpit stairs —

When will the gratuitous pub^l come on?
This inquiry is beginning to be made —
I have but just now rec^d from
bro. Williams N York a Commission
to do something for the "Quarterly
Subscription Plan" — which I shall
act on immediately — I shall get
a few dolls — all the more for receiv-
ing pub^l without charge — Two or three
individuals are quite warm & strong —
My Commission from bro. W. has been
taking a long nap up in Vermont —
which is the reason why I have not
rec^d. it before —

I came out strong last day on slavery.
The effect was good — Some are warm —
Adams Rumor says here that you have
been defeated in your discussion at
Farmington — Dr. Porter's son has blown

Wm. Phelps, I write you now to obtain

answers to certain questions which I propose —
Do you want me to form an Anti-Slavery Socy
here this month, so as to have delegates from it
next month to a County Convention? I have
had a hint of this from bro. Tyler Callbrook.

Do you want me to obtain as many names as
I can to the "Call for the N. England A. S. Convention
May 24th Boston, on only the names of our prin-
cipal men — as merchant — representative, phy-
sician — justice Peace &c &c?

Do you mean to have a state Convention before
fall? Will not that be too late? Why not soon —
or at longest soon after the Anniversary in N York
& Boston! What mo. you say to the 4th July!
Too much bustle & danger of a mob.

I want to know bro. P. — if bro. Chipman was
afraid to have you go forward with him in abo-
lition efforts &c? I have been told this — and that
bro. Hickock stopp'd his cooperation with or on
by a letter setting forth the danger of division &c —
I ask you — because I'm not writing to bro
C. — just these days — I tell my folks I shall
— speak out on this or any other subject if
